

DO YOU SUFFER FROM KNEE PAIN?

We are currently recruiting healthy patients

- between the ages of 18-55
- with isolated **articular cartilage defects of the femoral condyle** of the knee
- that have had an inadequate response to conservative treatment

If you are interested in learning more, please contact the Clinical Research Office Phone: 484-526-7825; Email: denise.tarsi@sluhn.org

This study compares Novocart[®] 3D, a biologic/combination device product, to Microfracture in the treatment of articular cartilage defects of the knee. The research study is being funded by the sponsor, Aesculap Biologics, LLC. In Europe, NOVOCART[®] 3D is an Advanced Therapy Medicinal Product (ATMP) and has been on the market since 2003.

You can learn more about the clinical trial on the web at [clinicaltrials.gov](http://www.clinicaltrials.gov): <http://www.clinicaltrials.gov/ct2/results?term=NCT01957722&Search=Search>

Or use search term: **Novocart 3D**
